CLS-IIIRS TECHNOLOGICAL INNOVATION WITH TRUE INTELLIGENCE

Indoor air pollution by microorganisms, carbon dioxide, allergens, chemicals, volatile organic substances, aerosols, building materials or harmful outdoor air is a major risk factor for our health.

The CLS-IIIRS is able not only to identify harmful particles, but also to accurately assess the resulting **risk of infection**.

CLS-IIIRS provides a 7-day **prognosis** and gives you **efficient countermeasures**!

**Revolution of all private households
and public institutions!**
